**ABOUT SR UNIVERSITY**

Sri Rajeshwara Educational Society, the parent body of SR University is a 45-year-old conglomerate of educational institutions with more than 90,000 students and 10,000 teaching and non-teaching staff members. SR Educational Academy governs 95 Educational Institutions across Telangana and Andhra Pradesh.

The goal of SR University is to create an innovative learning educational ecosystem whose graduates significantly contribute to the growth of Telangana and India.

At the core of SRU, exceptional faculty engage students in new experiences through innovative teaching approaches. SRU is home for such faculty who are ever curious to question existing knowledge, push the boundaries of understanding through research, and incorporate innovative teaching-

pedagogies for better learning experiences.

**ABOUT SCHOOL OF COMPUTER SCIENCE & ARTIFICIAL INTELLIGENCE**

Through a partnership with one of the world's biggest tech companies, SR University's cutting-edge programs have been designed with a blend of pragmatic and theoretical concepts that build a firm foundation for students in the core areas of Computer Science & Artificial Intelligence. The programs provide students with tools to identify problems that are best solved by means of a computer.

**ABOUT THE STTP**

Python is a high-level general purpose programming language that is used in a wide variety of application domains. Python follows modular programming approach, which is a software design

technique that emphasizes separating the functionality of a program into independent, inter-changeable modules, such that each contains everything necessary to execute only one aspect of the desired functionality.

**TOPICS TO BE COVERED IN STTP**

- > Basics of Cyber Security
- > Malware Analysis
- > Network Security

**RESOURCE PERSON**

**Mr. V. Thirupathi**, Assistant Professor, School of Computer Science & Artificial Intelligence, SR University, Warangal-500371.

**ELIGIBILITY**

Students of eminent engineering colleges and universities.
