G.Vinay	14K41A0177		
K.Prashanth	14K41A0181		
B.Sravan	14K41A0169		

Community Partner: Our community partner is our college maintenance team gave us permission to proceed to perform the project in our college. The project purpose full thing which can be generated to help the college premises when the scarcity of water has taken place.

Abstract: Water is the most natural resources which is being always in high demands by human beings and is indispensable part of the life. If this demand is not met then it will lead to water scarcity. Now days, water scarcity has become the most common problem in every part of India. This problem is also being profoundly seen in residences halls inside the campus. And if it has not been dealt earlier with proper care then this problem will become a major hurdle. This makes the community to handle easily, accepts and promotes even without any awareness or capacity building. At the same time, participation of community in the construction and maintenance makes the ownership of the structure.
