**Abstract:**

Fishing is the an activity that is carried out in most parts of India. It is one of the means of livelihood. The fisherman uses various equipments for catching the fish which include hand gathering, spearing, netting and trapping. They find it difficult to carry these equipments while fishing. They need a spacious boat which can accommodate all the necessary equipments they need for fishing. Hence we came up with this economical boat for fisherman as a solution which they can use to perform their fishing with comfort.
