**Abstract:**

Farming is the backbone of any nation especially india.farmers face a lot of problems while farming.One of the common problem is the sprinkling of pesticides by carrying heavy sprinklers on their back.Due to this they are prone to problems like back pain,shoulder pain.Our product aims at solving this problem by developing a drip type pesticide sprinkler which is automated and the farmer doesn't need to carry any load.The sprinkler setup will run through the fields and will sprinkle the pesticides in required quantity.
